TURBOCHARGE TABLEAU

Incorta provides a sub-second response on large, complex data for the Tableau dashboards, reports and analytics that you love.

Incorta is the fastest way to view, report and analyze large, complex business data. Providing sub-second query response on real-time data, Incorta eliminates traditional ETL and allows business users to gain insight into their data quickly and easily. Incorta removes the need for data pre-aggregation and loads business data directly from source systems bypassing the cost, complexity and time investments traditionally required.

“It used to take 8-12 weeks to get a report from request to production. With Incorta, business users can do it on their own, instantaneously.”

-Ajit Oak, BI Architect, Broadcom

Real-Time Data Analysis

1 Second Response

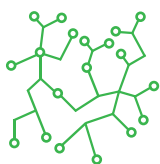

Filter, search & drill-down on 1 billion records live without impacting source applications.

Self-Service Data Analysis

No Pre-Aggregation

Access all your data & answer dynamic questions without pre-defined cubes or star-schemas.

No-Limitation Data Analysis

On Complex Data

Process complex business data joins across tens of tables while maintaining original data model.

IT-Secured Data Analysis

Enforced Security Policy

Incorporate hierarchical & context-sensitive access rules to meet demanding security requirements.
